

The Thinnest Smartphone, Exclusively from AT&T.

Nokia E71x

Effortlessly organize your life.

- Only AT&T offers you the thinnest smartphone on the market—just 10 mm—with a full QWERTY keyboard. The Nokia E71x combines small size with big power and beautiful style.
- Built-in, high-quality 3.2 megapixel auto-focus camera makes sharing the moment with friends, family and co-workers a snap.
- Video share calling for live stream video communications and a true “see what I see” experience.
- An optimized E71x user interface lets you run your favorite applications simultaneously, without having to shut down one task to start up another. Enjoy music or cellular video capabilities at lightning speeds on the nation’s fastest 3G network.
- With quad-band EDGE support, you can stay connected whether you’re traveling across town, throughout the U.S. or around the world.

You’re always connected.

- Stay connected and manage your personal and business life, from just about anywhere:
 - Mail for Exchange for corporate email
 - Use XpressMail and mobile IM to get personal email and instant messages, including AOL® and AIM, Windows Live™ and Windows Live Messenger, and Yahoo!® and Yahoo! Messenger

- Quick office and PDF reader to open and forward attachments including documents, spreadsheets and PDF files

- Wi-Fi® lets you connect to thousands of hotspots throughout the world in places where AT&T may not yet be located — so you can easily surf the Web, keep track of friends, family and colleagues in your online communities, and more.
- Integrated aGPS helps you travel with confidence thanks to voice-guided, turn-by-turn directions and fast traffic re-routing using AT&T Navigator.¹
- Bluetooth v2.0 EDR lets you connect up to six devices at once and supports additional accessories, including A2DP stereo headsets.

On-the-go entertainment options.

- Support for AT&T Mobile Music, MP3, WAV, AAC, WMA and Real® files.
- Watch MPEG4, WMV and other video files on its bright, QVGA landscape screen.
- Extend your memory with a microSD™ card (up to 32GB).

Nokia E71x

Ultra-thin, big on features

The Nokia E71x handles your wireless communications and entertainment needs in the U.S. and globally—in a 10-mm-thin form factor.

¹ The availability and accuracy of GPS location services are dependent on wireless networks and satellite systems. May not function in all areas or at all times. You should never rely solely on GPS products for essential communications such as emergencies. A separate subscription is required for AT&T Navigator.

² Talk and standby times are estimates and vary based on many factors. For complete information, refer to www.nokiausa.com.

³ Requires 3G (WCDMA/UMTS) service. 3G service may not be available in all networks. The establishment and continuation of a 3G connection depends on network availability, provider support and signal strength.

Nokia E71x Specifications

IMPORTANT INFORMATION: Coverage not available in all areas. Device subject to availability. This device is sold for use on AT&T's wireless systems. It may not be compatible with other wireless systems. Battery life, talk and standby times are approximate and depend on network configuration, signal strength, features, selected and customer usage patterns. Specifications subject to change. Up to \$36 activation fee applies. Certain benefits and service features may require to purchase additional hardware and/or software, obtain a network connection and/or pay monthly access and/or per use charges. Requires subscription to PDA unlimited or PDA plan, customers cannot subscribe to MEdia Net consumer plans. Subscribers must live and have an address within AT&T's wireless owned network coverage area. Availability, speed of delivery and timeliness of information is not guaranteed. Terms of service will vary based on selected service plans. Special credit and customer subscription length restrictions and additional charges may apply to international roaming. Availability, quality of coverage and services while roaming are not guaranteed. Video Share is not available in all areas. Video Share requires the sender and receiver to have compatible phones, the Video Share feature, and be in a 3G coverage area to share video. Both sender and receiver will be charged for any airtime usage and call minutes. Only sender will be charged for Video Share minutes. Additional charges may apply for usage outside the U.S. AT&T is not responsible for content of any live video. Other conditions and restrictions may apply. See business/service agreement, rate plan brochure(s) and coverage map(s) for details. © 2009 AT&T Intellectual Property. All rights reserved.
